Projects

Gesture-Car-Racing

<https://github.com/Ishika-guptaa25/Gesture-Car-Racing>

Computer Vision Project

- A modular gesture-controlled car racing game using Python, MediaPipe, and OpenCV, enabling real-time vehicle control through hand gesture recognition.

ASL-Gesture-Sense

<https://github.com/Ishika-guptaa25/ASL-Gesture-Sense>

Gesture Recognition Project

- A real-time ASL gesture recognition system designed hand-landmark detection and gesture interpretation logic to accurately recognize sign movements.

VisionTrack-YOLO

<https://github.com/Ishika-guptaa25/VisionTrack-YOLO>

Object Detection Project

- A real-time object detection that identify multiple objects in images & video streams. Integrated pre-trained YOLO models for frame-wise detection, confidence scoring, and modular separation of detection, and visualization components.
